

# Ozwood Signature Engineered Hardwood Flooring

Bring nature into your home

## We Log

We believe it is the best way to make sure all our logs are legally sourced and from sustainable forests and every single log meets our strict quality requirement.

Discover Our Passion For:

# *The Ultimate Excellence of Quality*

## We Serve

We have a helpful local team to assist our Australian customers.

## We Produce

We have our own timber flooring factory with decades experience in production.

## Soft and Comfortable

### KEY FEATURES

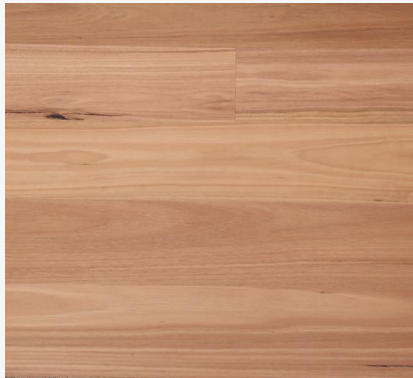

- 3mm timber veneer for a solid feel and longer life
- A wide range of choices; Spotted Gum, Blackbutt, Blue Gum, Ironbark, and more.
- Soft and Comfortable underfoot
- Patented 5G locking system and Tongue&Groove available
- 12 layers PPG water-based non-toxic polyurethane finish for supreme hardness
- Slip and scratch resistance
- Australian warranty and customer service support

### Easy Installation

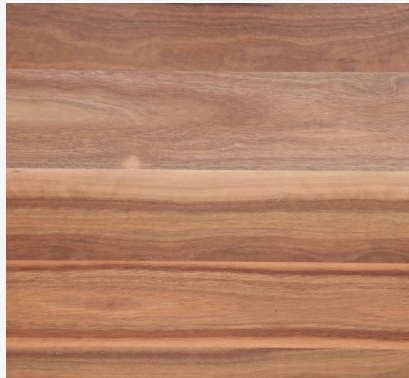

With our pioneering 5G locking system, floor installation has never been easier. The boards are locked on the long side with a traditional angling method. On the short side, the 5G locking system enable simple and fast installation by vertical snap or side push without the need of any tools.

## 3mm timber veneer for a solid feel and longer life

Ozwood signature engineered flooring with a 3mm wear layer can be sanded and refinished approximately 2 to 3 times over the lifetime of the floor. It has been stated that the average homeowner has their hardwood flooring sanded and refinished every 15-20 years. We have seen many homes with hardwood floors that are 30 years or older that have never been refinished and still look new. Hardwood flooring still has the greatest value for its longevity when compared to other types of floor covering.

## Different Types of Finish

The details make the different

**Gloss**

A gloss finish provides your space with a striking, polished effect.

**Satin**

A silky, smooth finish with a subtle shine

**Matt Brushed**

Products with a matt finish reflect the natural look and feel of timber. The brushed treatment adds an unique texture and depth to a floor.

## 12 layers of PPG non-toxic water-based polyurethane finish

All Ozwood Signature Engineered Hardwood Floorings are refinished with 12 layers of PPG polyurethane coating, which means they are ready for use immediately after installed without chemical odours. And also:

- Enjoy longer lifetime and carelessness
- Supreme performance in abrasion, indentation, and scratch resistance
- Safer than oil-based, fewer volatile organic compounds(VOCs)

With over 135 years of expertise

PPG:  
We protect and beautify the world™

Enjoy with less hassle
